

## HD HOMES

### HD Homes Valued Lender Program

As you think about purchasing a new home, or if you have made the decision to move forward with a new HD Home, the next question that probably comes to mind is, “*what is this going to cost on a monthly basis?*” It’s a big step and HD Homes knows and understands how important it is to help home buyers, particularly first-time buyers, get through the process as smoothly and as confidently as possible.

The more information you have, the better of a decision you will make and feel assured of your purchase. This is why HD Homes has created the *Valued Lender Program*.

All you need to do is contact our Valued Lenders listed below to start the qualification process and compare rates. We always encourage you to get multiple rate quotes so you can have a good comparison of what different lenders are offering.

By choosing one of HD Homes’ Valued Lenders, HD Homes will pay for the final survey AND your title policy on your new home. **This is a value of \$500.00 or more for the survey and as high as \$2,000.** While we certainly will consider your desire to work with your lender should you have an existing relationship established, HD Homes is doing all we can to insure that your get a competitive mortgage rate, timely appraisal, and a prompt closing without any last minute issues...most of all *HD Homes wants to make sure that your needs are met and that you are a happy customer!*

Please contact HD Homes at any time and we will provide the information you need to help make informed decisions as you experience this most exciting step in your life.
